

PROFESSIONAL SUMMARY

Oracle Development Supervisor with 6+ years of experience in Oracle application development, PL/SQL programming, business analysis, and enterprise system support. Experienced in leading technical teams, managing cross-functional collaboration, optimizing business processes, and delivering scalable solutions for high-volume operational environments.

WORK EXPERIENCES

SPV. APPLICATION SPECIALIST (ORACLE)

NAN YANG TEXTILE GROUP

Jun 2025 to Currently

Oracle Development & Technical Leadership

- Lead the design, development, and maintenance of Oracle database objects including tables, views, indexes, triggers, stored procedures, and functions to support enterprise-level applications.
- Supervise the development of efficient, scalable, and optimized PL/SQL programs for data processing, reporting, system integration, and business automation.
- Drive database performance tuning, query optimization, and troubleshooting activities for high-volume transactional systems to improve system efficiency and stability.
- Oversee ETL processes, data transformation logic, and data migration activities across multiple business environments.
- Review and ensure code quality, system performance, and compliance with development standards and best practices.
- Coordinate with cross-functional technical teams to integrate Oracle-based applications with existing enterprise systems.

Business Analysis & Stakeholder Coordination

- Lead collaboration with Business Analysts, Infrastructure teams, and business stakeholders to analyze requirements and deliver end-to-end technical solutions aligned with business objectives.
- Facilitate requirement gathering sessions, impact analysis, and solution discussions with users and management teams.
- Translate business requirements into scalable technical designs, functional specifications, and implementation plans.
- Manage User Acceptance Testing (UAT) activities including test planning, issue tracking, user coordination, and deployment support.
- Coordinate enhancement requests, prioritize development activities, and ensure timely project delivery.

Production Support & Process Improvement

- Oversee production support activities for Oracle Forms, Reports, PL/SQL applications, and related enterprise systems.
- Lead root cause analysis and resolution of system issues, database errors, and performance bottlenecks to minimize business disruption.
- Supervise issue investigation, user support activities, and post-deployment monitoring to ensure smooth system operations.
- Conduct user training sessions, prepare operational guidelines, and support user adoption of new system functionalities.
- Drive process improvement and automation initiatives to enhance operational efficiency and reduce manual workload.
- Monitor recurring operational issues and proactively implement long-term system optimization strategies.

TECHNICAL PROFICIENCY

Oracle Ecosystem (Core Expertise)

- **Development Tools** : Oracle Forms 6i / 2000, Oracle Reports 6i / 2000
- **Database Programming** : Advanced PL/SQL (Packages, Stored Procedures, Triggers, Functions)
- **Data Management** : SQL Tuning, Data Migration, Complex Query Optimization

Modern Programming & Automation

- **Back-end Development** : Node.js
- **Scripting & Analysis** : Python
- **Robotic Process Automation (RPA)** : UiPath (Workflow design & Task automation)

Systems & Analysis

- **Methodologies** : Requirement Gathering, System Design, UAT Coordination
- **Documentation** : Technical Specification, Data Flow Diagrams (DFD), User Manuals

WORK HISTORY

SR. ORACLE DEVELOPER

Castle Peak Holdings (Public) Co.,Ltd. ,

C.P.G. Garment Co.,Ltd.

July 2020 to Jun 2025

- Developed and maintained Oracle Forms and Reports for ERP applications.
- Optimized SQL queries and PL/SQL procedures to enhance database performance and efficiency.
- Integrated Oracle Database with Node.js for dashboard reports and automated email alerts.
- Provided database administration support, including backup and recovery, to ensure data integrity and availability.
- Delivered daily user support, diagnosing and resolving Oracle application issues to ensure seamless business operations.
- Trained and mentored Jr. Oracle Developers, providing technical guidance and best practices to enhance team performance.

MERCHANDISER

Castle Peak Holdings (Public) Co.,Ltd. ,

C.P.G. Garment Co.,Ltd.

October 2016 to July 2020

- Communicated with customers to manage purchase orders, coordinate shipment planning, and prepare OCR documents.
- Created BOM (Bill of Materials) based on customer Tech-pack specifications to ensure accurate production planning.
- Collaborated with suppliers to track materials, shipment plans, and pricing details to generate quotation sheets.
- Planned and processed purchase orders for fabric and accessories, aligning with factory production schedules.
- Prepared sample sheets, developed sample garments, and coordinated approvals from customers.
- Worked closely with customers' QC teams during in-line and final inspections to ensure product quality before shipment.

EDUCATION

COMPUTER SCIENCE

Bansomdejchaopraya Rajabat University

Year of Graduate : 2016

GPA : 3.30

MARKETING

Technology Mubankru College

Year of Graduate : 2010

GPA : 3.49
